

**Philadelphia Local Section Administration Form 2016**

Local Section Administration Form - Governance	
1. How many times did the executive committee conduct governance business during 2016?*	2
2. How many members were there in the executive committee during 2016?*	5
3. How did the executive committee communicate with one another during 2016?*(Check all that apply.)	<input checked="" type="checkbox"/> Email <input type="checkbox"/> Teleconference <input type="checkbox"/> ACS Network <input checked="" type="checkbox"/> Other - in person
4. What percentage of your councilors were in official attendance at the Spring and Fall ACS Council meetings?*	100%
5. Did a member of your local section attend the Local Section Leaders Track at the 2016 ACS Leadership Institute?*	<input checked="" type="radio"/> Yes <input type="radio"/> No
6. Did your local section have a succession and/or leadership development plan during 2016?*	<input checked="" type="radio"/> Yes <input type="radio"/> No
7. How did your local section identify future leaders and get them into the leadership pipeline during 2016?*(Check all that apply.)	<input checked="" type="checkbox"/> Self-nomination <input checked="" type="checkbox"/> Solicitation or advertising <input checked="" type="checkbox"/> Identify active committee members <input type="checkbox"/> Formal leadership training <input checked="" type="checkbox"/> Long term plan <input checked="" type="checkbox"/> Outreach to new members <input type="checkbox"/> Arm-twisting <input type="checkbox"/> Other -
8. Did your local section conduct an officer election during 2016? *	<input checked="" type="radio"/> Yes <input type="radio"/> No
9. Did your local section conduct its elections electronically during 2016?*	<input checked="" type="radio"/> Yes <input type="radio"/> No
10. How many members voted in your local section officer election in 2016?*	530

Questions 11-13 provide the opportunity for your section's leadership to communicate successes, challenges, goals, and progress towards meeting those goals. We want to hear from you! Please use the required comment boxes to share your thoughts about your section. In questions 12 and 13, do not feel limited by having spaces indicated for the top three goals. Other goals can be added in the comment box if needed.

<p>11. 2016 Chair's report: Please provide a narrative of the past year's activity/successes/challenges:*</p>	<p>The section had 9 section meetings and 10 board of director meetings. For the January meeting, the ACS Philadelphia section award was presented to Donna Huryn, University of Pennsylvania. This was for the 2015 award, but because of scheduling conflicts for the speaker, the presentation of the award was made in January. Held at the University of Pennsylvania, the award presentation was followed by a lecture by Donna Huryn and a celebration dinner. The February section event was held at the University of the Sciences and was followed by the YCC's graduate poster session and competition. Several of the board members served as judges for the event. The Edgar Fahs Smith lecture was given by Prof. George Schatz, held at the University of Pennsylvania. In mid March, 230 certificates were sent to high schools with the section. The certificates were for presentation to the top high school seniors in chemistry. In April, we celebrated the Scholastic Achievements of the top seniors from our 28 colleges and universities. Held at McCall's, Joe Martino (chair of Career services) gave a lecture entitled "What the ACS can do for you, an introduction to Career Services". In May, the section presented two awards, the award for Excellence in Pre-College teaching and Excellence in Undergraduate teaching. The event was held at the University of the Sciences. After the presentation of the awards, an entertaining seminar was given by Prof. Charlie Bamforth, Endowed Professor of Malting and Brewing Sciences, Food Science and Technology, UC Davis. Over 60 people attended the event and dinner. As the event was held at the University of the Sciences, the department's new Undergraduate Brewers Science faculty and students took part in the event as well as the advisors to the program from Yuengling brewery. As we closed May, the section administrative assistant resigned her position to pursue other opportunities. As the section was challenged with having to fund an ad min at 20 h/wk and fund its main activities, the board proposed alternatives for having a more flexible approach for its business office. As well, a re-examination of the task of the business office offered an opportunity to streamline functions such that a 20 h/wk was not needed. The board of directors approved sharing an ad min from the University of Pennsylvania on an as needed basis. This allowed the section to pay Penn for ad min services under an SOW and has resulted in a significant cost savings to the section. The process was kicked off at a face to face meeting of the board of directors in May and was completed at the June board of directors meeting. The new ad min was on-boarded in July. In the June event, held at the Chemical Heritage Foundation celebrated our 50 and 60 year members, complete with lunch and a guided tour of the CHF museum. For most of the spring and summer, several board members and volunteers planned for the local section's participation in the ACS National meeting in Philadelphia. The committee was led by Anne DeMasi. Two key volunteers helping Anne, were Deb Cook and Kathy Shaginaw. As the section held many events at the ACS National meetings, in Sept, the board met but no section event was held. In September, the section office mailed several copies of the Career Navigator brochure to each of the chemistry department chairs of the colleges and universities within the section. Several department chairs requested additional copies which were subsequently delivered. In October, the 2016 Philadelphia Section Award was presented to Professor Anthony Addison, Drexel University. The award presentation, lecture by Prof Addison and dinner were all held at Drexel. Over 70 people attended the event. Also in October, the executive committee met to have prebudget discussion. In November, the section held the Ulliyot lecture at the Chemical Heritage Foundation. The section was truly fortunate to have the 2017 Nobel Laureate in Chemistry, Sir James Fraser Stoddard give the Ulliyot lecture. The event, which is free and open to the public, was quickly booked! The capacity crowd of nearly 200 was treated to a beautifully detailed and thought provoking lecture by Professor Stoddard. The award presentation and lecture was followed by an open reception and then by a smaller dinner with members and benefactors. December wrapped up the year with our holiday dinner and budget planning session.</p>
<p>12. 2017 Chair's goals for the Section</p>	

a. Please list your top 3 goals:	Increase participation of members at Section events and in Section committees and activities.
	Revitalize Communications Committee and encourage use of social media and other electronic media.
	Execute programming to encourage participation of membership and integrate committee activities.
b. What are your concerns and challenges?*	<p>Philadelphia Section is extremely diverse in geography and demographics. Our membership has significantly decreased over the past 10 years due to changes in industry as well as membership demographics. Providing for the needs of this diverse audience presents many challenges.</p> <p>Although there is a dedicated core membership contingent, engaging new and less active members has been challenging. One bright spot is our very active YCC programming. Transitioning these active members into the governance and activities of the Section is a challenge that should be embraced.</p> <p>The Section's main vehicles for communication have been the "Catalyst", our monthly newsletter and our website. The "Catalyst", now published electronically, was first published in February 1916. However, in this time of rapid news cycles and social media, we need to come into the 21st century and up our game. Enlisting the help of our younger members and expanding the Communications Committee to include social and electronic media resources will be a major focus.</p>
13. 2017 Chair-Elect's goals for the Section	
a. Please list your top 3 goals:	Increase/expand collaborations with local scientific community/nearby professional organizations.
	Improve visibility/membership interaction by enhancing involvement on social media(FB)& elec commun
	Increase membership/member involvement by engaging in more outreach activities with the community
b. What are your concerns and challenges?*	<p>1) The Philadelphia local section does not have a strong individual voice. We have not developed a section-specific mission and vision which may provide focus on the long term and short term goals.</p> <p>2) The Philadelphia section of the American Chemical Society lacks a strong presence in social media and has just begun to refocus towards the recruitment and continued involvement of younger members.</p> <p>3) A continuing challenge is in maintaining and increasing the local section membership.</p> <p>4) Although we do outreach programs to educate the public and support future chemists, we have the opportunity to expand our efforts with a focus on interacting with the adult members of the community. Finding programs that engage and energize those with non-scientific backgrounds can be more challenging.</p>

**Local Section Administration Form - Organization**

1. Did your local section have any active committees with two or more members during 2016?*	<input checked="" type="radio"/> Yes <input type="radio"/> No

## Philadelphia Review Form 2016

### Publish Comments

Barbara Hillery: The Philadelphia Local Section is a very active section which includes 5 subsections hosting 40 subsection meetings as well as 25 topical group meetings. While the report states there were just 2 executive committee meetings, I suspect this is in part a result of nomenclature uncertainties. The section has listed as many as 14 executive meetings in the recent past, and in 2016 states there were 10 Board of Directors meetings. The section continued their regular annual sequence of award ceremonies, outreach to and recognition of top chemistry high school and undergraduate seniors, and ongoing meetings for the membership. There is clearly a lot going on, and the section is to be congratulated.

Even highly successful sections encounter difficulties, and Philadelphia last year ran into problems with their business affairs when their part-time administrative assistant left for another position. I think this is the first time I've seen a section report this difficulty, and it is one that is most likely to occur in a large and active section where admin support becomes so important. The section was able to use the opportunity to reassess their need and found a partnership solution that continues to provide support while decreasing expenses. The other challenge noted by the section is the oft-repeated one of engaging new volunteers. This remains a challenge for every section, large and small. Philadelphia has encountered some success with a Younger Chemist Committee, and has plans for leveraging the expertise of the YCC to enhance communication within the section through increased use of social media.

## Event - Narrative and Nomination

No award(s) are nominated for this event.

## Event - Evaluation

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	5
What were the greatest successes of this event?	This was our first time running this event and we got seven entries. In addition, the judging rubrics, Section awards, and mailings were prepared and will be used in follow-on years.
Lessons Learned/Suggestions to improve this event	We need to begin advertising earlier and we need to develop a more comprehensive contact list of schools in the Section territory.
Share this event with other local sections, technical divisions and international chapters.	<input type="checkbox"/>

## Philadelphia Philadelphia Area Girls Enjoying Science™ (PAGES™) - Spring 2016 Event Form 2016

Event - Overview							
Name of the Event*	Philadelphia Area Girls Enjoying Science™ (PAGES™) - Spring 2016						
Brief Description*	PAGES™ gives sixth-grade girls a hands-on experience with science. The program is offered each fall and spring at Chestnut Hill College, Philadelphia, PA. Each event begins with a breakfast snack and a keynote address given by a local woman with an interesting career in science. The participants are divided into small groups to perform three different experiments. Each experiment is led by a female scientist. The day ends with lunch, give-aways, door prizes, & decorating a banner.						
Organization*	Philadelphia						
Year Held*	2016

**Event - Narrative and Nomination**

No award(s) are nominated for this event.

**Event - Evaluation**

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	10
What were the greatest successes of this event?	The girls always leave so excited about science. It is a great place for volunteers to network.
Lessons Learned/Suggestions to improve this event	It is a challenge to collect all of the criminal background checks. It would be nice if the process were simpler.
Share this event with other local sections, technical divisions and international chapters.	<input checked="" type="checkbox"/>

## Philadelphia Philadelphia Area Girls Enjoying Science™ (PAGES™) - Fall 2016 Event Form 2016

Event - Overview							
Name of the Event*	Philadelphia Area Girls Enjoying Science™ (PAGES™) - Fall 2016						
Brief Description*	PAGES™ gives sixth-grade girls a hands-on experience with science. The program is offered each fall and spring at Chestnut Hill College, Philadelphia, PA. Each event begins with a breakfast snack and a keynote address given by a local woman with an interesting career in science. The participants are divided into small groups to perform three different experiments. Each experiment is led by a female scientist. The day ends with lunch, give-aways, door prizes, & decorating a banner.						
Organization*	Philadelphia						
Year Held*	2016

Event - Narrative and Nomination

No award(s) are nominated for this event.

Event - Evaluation

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	9
What were the greatest successes of this event?	We have achieved our original aim: to replicate the highly successful Boston Regional Inorganic Colloquium in the Philadelphia area. Thus far we have had excellent attendance, a diverse list of speakers, and high participation from students in the region.
Lessons Learned/Suggestions to improve this event	To enhance the scientific discussion at the events and further improve networking opportunities for attending students, future events will work to broadcast the colloquium announcements to an even wider audience from outside the academic enterprise (including industrial, civil and governmental employees).
Share this event with other local sections, technical divisions and international chapters.	<input checked="" type="checkbox"/>

Event - Overview							
Name of the Event*	Local Section Booth at the National Meeting						
Brief Description*	The Phila Section sponsored a booth at the Nat'l Meeting in Phila. Materials highlighted local activities including: Chem Consultants Network, YCC, WCC. Displays were prepared highlighting eminent chemists from the Phila section and local areas. 2nd display highlighted Nat'l Historic Chem landmarks. Displays are on loan at section office (UPenn Chem Library) and available for section members to use at meetings/committee events. The section also prepared a special ed. of our local section newsletter.						
Organization*	Philadelphia

## Event - Narrative and Nomination

No award(s) are nominated for this event.

## Event - Evaluation

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	8
What were the greatest successes of this event?	There was a lot of interaction at the booth, steady traffic, great give-aways (Historical Figure rubber duckies!) The displays honoring eminent chemists and National Historic Chemical Landmarks were outstanding.
Lessons Learned/Suggestions to improve this event	This booth was in a great location, much better than at the previous National Meeting.
Share this event with other local sections, technical divisions and international chapters.	<input checked="" type="checkbox"/>

### Philadelphia Delaware Valley Enzymology Club Event Form 2016

Event - Overview							
Name of the Event*	Delaware Valley Enzymology Club						
Brief Description*	The Enzymology Club has been holding meetings for over 20 years. The Club hosts 4 meetings per year at a local restaurant or university dining center. After dinner a prominent local scientist gives a lecture about their research in enzymology or closely related area. Attendance is usually 20-30 scientists from both industry and academia. Several students often attend. Recent speakers were Nozomi Ando (Princeton University), John T. Groves (Princeton University), and Lynn Abell-Bristol-Myers Squibb.

#### Event - Narrative and Nomination

No award(s) are nominated for this event.

#### Event - Evaluation

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	9
What were the greatest successes of this event?	Quality of the talks and questions from a sophisticated and varied audience. Networking opportunities for attendees during the dinner and social hour.
Lessons Learned/Suggestions to improve this event	Balance industrial and academic speakers. Choose high quality scientists as speakers. Recommend to speakers that they give a high-level talk, as they would at a specialist's Gordon Conference.
Share this event with other local sections, technical divisions and international chapters.	<input checked="" type="checkbox"/>

## Philadelphia Ulliyot Lecture -Sir James Fraser Stoddart, Nobel Prize Winner Event Form 2016

Event - Overview							
Name of the Event*	Ulliyot Lecture -Sir James Fraser Stoddart, Nobel Prize Winner						
Brief Description*	<p>Sir James Fraser Stoddart, 2016 Nobel Laureate in Chemistry presents "Mingling Art with Science"</p> <p>The Ulliyot Public Affairs Lecture was established in 1987 by Glenn Edgar Ulliyot. The purpose of the lecture is to emphasize the positive role that chemical sciences play in our lives. The Ulliyot Scholarship, launched in 1996, provides opportunity for an historian, chemical scientist, or science communicator, to develop his/her knowledge of the positive role that chemical sciences play in our lives.</p>
